Experience

LOCVM Toronto, ON
Research Assistant Aug 2026 – Present

- Scraped and analyzed 632 physician locum posts from Facebook groups and 925 job-board postings to assess demand
- Built web scrapers for several Canadian physician job boards, collecting postings in LOCVM's data format
- Calibrated weights for the physician–job matching model (duration, location and EMR fit) based on economic impact, and designed questions to capture user preferences

Securities and Investment Management Association (SIMA) Toronto, ON
Research Assistant May 2026 – Sep 2026

- Independently built a proof-of-concept Python web-scraping tool using AI APIs to automate data collection for the policy team
- Presented progress to the research team and proposed a plan to integrate the tool into existing policy research workflows

Toronto Metropolitan University Toronto, ON
Research Assistant Jan 2026 – Present

- Reviewed literature on TFSA/RRSP investment behaviour, producing figures, ArcGIS maps and policy recommendations
- Designed survey instruments and contributed to experimental design to collect primary data on household savings decisions
- Analyzed survey responses in R and Python (supervised by Dr. Haomiao Yu and Dr. Angelique Bernabe)

Canadian Economics Diversity Committee (CEDC) Toronto, ON
Research Analyst Jul 2025 – Present

- Extracted, cleaned and analyzed large demographic datasets on faculty and graduate students at Canadian universities
- Used AI models and web scraping to infer missing demographic data, improving dataset completeness
- Co-authored the research report, translating quantitative findings into written analysis

Department of Economics, University of Toronto Toronto, ON
Research Analyst Apr 2025 – Present

- Optimized data pipelines for merging and large-scale geocoding in ArcGIS (supervised by Dr. Farhoodi and Dr. Baum-Snow)
- Built an interactive microeconomics website with dynamic visualizations in JavaScript and Python (supervised by Dr. Khazra)

Leadership

Relay For Life UofT (Canadian Cancer Society) Toronto, ON
Finance Captain Sep 2026 – Present

- Supervise a 7-member finance committee for a large student club that fundraises for the Canadian Cancer Society
- Write grant applications to secure funding and allocate the club's budget across events and operations

Canadian Women Economists Committee (CWEC) Canada
Student Representative Sep 2026 – Present

- Selected as one of four students across Canada to represent students on a committee supporting women in economics
- Serve on the event planning and newsletter subcommittees

St. Michael's College, University of Toronto Toronto, ON
Student Ambassador Sep 2025 – Present

- Help new students transition to university; represent SMC at university-wide meetings
